Attachments: Letter to DEC re ULC OU2_draft_03-26-2020.docx

Carl,

Please find attached the draft letter to DEC concerning the OU2 enforcement transition. Given the time-sensitivity, we wanted to get this out to you as quickly as possible. However, please note that the draft is subject to further government review.

Best,
Margo

Carl,

The 1993 cooperative agreement (attached) was closed out in 2008.

There is no separate and active agreement between the agencies regarding management of the site.

Hi Carl,

I am working on getting you the requested information and documents, and will send them to you as soon as possible. With respect to the draft letter, we are still in discussion with DEC regarding certain substantive aspects of the letter. Once those issues have been ironed out--and I anticipate that happening later today or early tomorrow--we can share the draft with you. EPA and DEC are mindful of

the filing deadline and are moving quickly to come to an understanding on the draft language in the letter.

Best regards and hope you are also holding up okay.

Margo

Hi Jim and Margo: I hope you are holding up okay in the shelter-in-place world.

We are working with our litigator Alan Knauf (Knauf Shaw) on the sur-reply requested by Judge Hurd in the Ley Creek OU-2 contribution case. The sur-reply, which as you'll recall will be focused on the R2 takeover of the OU-2 lead, needs to be submitted on Monday, 3/30.

Toward that end, could you please send us a draft of the clarification letter from R2 to NYSDEC regarding the timing of the takeover by R2? Also, could you send us a copy of the 1993 Cooperative Agr't between R2 and NYSDEC, and any amendments thereto?

We think it will be helpful to refer to the Cooperative Agr't (assuming it's still an active Agr't) to show that there is some process for sharing SF Site responsibilities between the two agencies.

And finally, by any chance is there a separate & active agreement between R2 and NYSDEC on how the Onondaga Lake NPL Site is being managed between the agencies? If so, could you please also send us a copy of that?

Thanks. --Carl
